SHA-1	d62f87db1ef4edba7f94acf56e3c51c4d6e9ad4b
MD5	ed4785aa72ae5fd25960c932c2c766a8
File Size	102085bytes
First Seen Timestamp	2021-09-05 09:36:37 UTC
Verdict	Benign
Antivirus Coverage	VirusTotal Information

2 Static Analysis

2.1. Suspicious File Properties

This sample was not found to contain any high-risk content during a pre-screening analysis of the sample.

PDF document contains an canonicalized object key of Action

An Action is performed in response to an event. Every triggered behavior in a PDF is ultimately a type of Action. Object key of Actions may be encoded to defeat static analysis.

File contains one or more URL/domain name/IP address

File may reference external resources through the URL/domain name/IP address. Both benign and malicious samples can have this behavior.
